Dear Customers,

We would like to take a moment to thank you for your support and cooperation over the years and we hope to continue this partnership in 2019. We want to build an even closer relationship with you and your business. As always, we welcome your advice, ideas and feedback—from you or from your customers.

Lami-Cell and Metalab stand for affordable, top quality equipment for all riders, from the very inexperienced up to competition level. All year we work towards new, innovative and fashionable products; proudly presenting them in our new 2019 - 2020 catalog.

Partrade is in the process of changing the item number structure to allow for our item growth within the company. Below we have presented an explanation of the new number structure to help you understand the new system. This new system is being implemented for all new items.

For Example: BE301210 0101 FUL (Basic All Purpose Saddle Pad)

<table>
<thead>
<tr>
<th>LETTER CODE</th>
<th>TYPE OF ITEM</th>
<th>COLLECTION</th>
<th>COLOR</th>
<th>SIZE</th>
</tr>
</thead>
<tbody>
<tr>
<td>BE</td>
<td>301</td>
<td>210</td>
<td>0101</td>
<td>FUL</td>
</tr>
</tbody>
</table>

- **BE**: Partrade has a sister distribution company in Europe. The letter codes represent which company location the item originated from and if it is Western or English.
- **301**: The first 3 numbers describe the main family group. 301 = all purpose saddle pad
- **210**: The following 3 numbers indicate the collection with which the item is associated. 210 = basic collection
- **0101**: The next 4 numbers reference the body and binding or accent color of the item. 0101 = black with black trim or accent color
- **FUL**: The final 3 numbers describe the size. FUL = full size

Description of Letter codes we currently use.

- **BE**: Items adopted from our Belgium office
- **UE**: USA English Items from Partrade
- **UW**: USA Western items from Partrade
- **US**: items that could be for all disciplines Western or English riding

Many thanks for your trust and we wish you all great sales in 2019,
The Partrade Team!

EMILIE VEILLETTE COLLECTION
We are proud to introduce

THE CLINICIAN COLLECTION

MAXIMUM COMFORT. ULTIMATE RESPONSE.

The Clinician Bit Collection is an innovative Bit Series that combines METALAB’s best systems and designs. The result is a series of ergonomic bits that offers maximum comfort to the horse’s mouth. From Recreational to Professionals, each bit is designed to trigger an ultimately positive response from the horse’s mind, reducing stress and reaction time to the cues.

D Ring Futurity Bit with Leather Mouthpiece

D Ring snaffle “Pinchless” with Rubber Mouthpiece

Omnin Bit with Swivel Free System purchase Tongs

Swivel Free System purchase rings gives more precision and comfort by allowing the shanks to swivel independently from the headstall when pulling on the reins.

The innovative Rubber cover concept allows maximum comfort to the horse’s mouth. This technology is designed to trigger a positive response from the horse by reducing stress and discomfort.

Unique and revolutionary Pinchless System allows the connecting rings to rotate independently allowing a full 360 rotation without pinching the tongue.

The O-ring suits a variety of horses with your choice of stainless steel or rubber covered bars.

1. It’s a level one, meaning the mildest bit you can use on a horse.
2. Mouthpiece is extra curved for less discomfort.
3. Features the patented Pinchless System with or without rubber covered bars.
4. Cheekpiece features extra long sleeves to avoid pinching with more lateral effect.
5. Good for young horses, or any type of horse that is light in the mouth and ridden with 2 hands.

Learn more about the Metalab Francois Gauthier Reining Bit Collection on our YouTube channel.
This bit is a versatile introduction to a ported bit that can be used with both hands.

1. It’s a level one, meaning the mildest bit you can use on a horse.
2. Mouthpiece has leather-covered bars for less discomfort.
3. Features the patented Pinchless System.
4. The cheekpiece features Swivel Free purchase rings that deliver a clearer signal to the horse and prevent the headstall from twisting.
5. Produces less pressure on the tongue than a regular snaffle with no possibility of pinching or squeezing the tongue.

This bit is a popular introduction to a shank leverage bit with a curb.

1. It’s a level one, meaning the mildest bit you can use on a horse.
2. Mouthpiece is extra curved for less discomfort.
3. Features the patented Pinchless System.
4. The cheekpiece features Swivel Free purchase rings that deliver a clearer signal to the horse and prevent the headstall from twisting.
5. The barrel attachments are oversized for less discomfort on the corners of the mouth.

A very popular and well-designed traditional bit.

1. It’s a level one, meaning the mildest bit you can use on a horse.
2. Mouthpiece is a 3-piece dog bone with leather-covered bars.
3. Features the patented Pinchless System.
4. The cheekpiece features Swivel Free purchase rings that deliver a clearer signal to the horse and prevent the headstall from twisting.
5. Good choice for a variety of horses and utilization.
A stylish bit that provides more leverage as the horse develops.
1. It’s a level one, meaning the mildest bit you can use on a horse.
2. Mouthpiece is a 3-piece dog bone with leather-covered bars.
3. Features the patented Pinchless System.
4. The cheekpiece features a loose bottom ring to provide more leverage.

A versatile bit that offers a lot of movement.
1. It’s a level one, meaning the mildest bit you can use on a horse.
2. Mouthpiece is articulated to move right and left but also collapses like a correctional bit.
3. Features the patented Pinchless System with rubber covered bars.
4. The cheekpiece features Swivel Free purchase rings that deliver a clearer signal to the horse and prevent the headstall from twisting.

A traditional English bit designed for control plus comfort.
1. It’s a level one, meaning the mildest bit you can use on a horse.
2. Mouthpiece is extra curved for less discomfort.
3. Features the patented Pinchless System with rubber covered bars.
4. The cheekpiece features Swivel Free purchase rings that deliver a clearer signal to the horse and prevent the headstall from twisting.
5. Innovative ergonomic features that provide better communication.
A versatile English bit with ergonomic features that provide better communication.

1. It’s a level one, meaning the mildest bit you can use on a horse.

JOSIANE GAUTHIER

Daughter of Francois Gauthier, Josiane is an expert breeder and rider. By managing over 7 stallions and 200 mares, Gauthier has developed an innate ability to produce well-balanced foals. She has used this ability in the ring with Non-Pro horses, earning Reserve Champion at the NRHA Futurity, 3rd in the NRHA Derby, Champion in the Florida Classic two years in a row, and has gained over $360,000 in her lifetime earnings. Josiane now concentrates on training Futurity prospects for Open and Non-Pro competitors, while also showing in all major NRHA and AQHA events.

We are proud to introduce

THE CLINICIAN COLLECTION

MAXIMUM COMFORT, ULTIMATE RESPONSE.

The Clinician Bit Collection is an innovative Bit Series that combines METALAB’s best systems and designs. The result is a series of ergonomic bits that offers maximum comfort to the horse’s mouth. From Recreational to Professionals, each bit is designed to trigger an ultimately positive response from the horse’s mind, reducing stress and reaction time to the cues.

- D Ring Futurity Bit with Leather Mouthpiece
- D Ring snaffle “Pinchless” with Rubber Mouthpiece
- Omni Bit with Swivel Free System purchase Fangs

Swivel Free System purchase rings give more precision and comfort by allowing the shanks to swivel independently from the headstall when pulling on the reins.

The innovative Rubber cover concept allows maximum comfort to the horse’s mouth. This technology is designed to trigger a positive response from the horse by reducing stress and discomfort.

Unique and revolutionary Pinchless System allows the connecting rings to rotate independently allowing a full 360 rotation without pinching the tongue.

BIT INTRODUCTION

Partrade Trading Company works only with high-quality steel. Our selection of bits, spurs, stirrups and buckles have made us number one in the equestrian products industry.

Metalab has selected only the best models and materials to provide the utmost comfort for you and your horse. We assure a very high quality control, ISO 9002, and we work with unique manufacturing procedures like the "Lost Wax" technique. We guarantee a high-quality bit for both comfort and safety!

Our bits are available in a wide range of types and materials. The forth number in the bit code indicates which type of material was used in the bit construction. Here is a list of different materials that we use:

1 = Albacon       6 = Nickel steel
2 = Flexi         7 = Rubber
3 = Stainless steel (SS) 8 = Cyprium
4 = Copper        9 = Pinchless
5 = Leather

• Stainless Steel (SS)
Metalab steel is manufactured on a base of 18 chrome high quality stainless steel using the "Lost Wax" procedure. This procedure assures a perfect workmanship, unlike the sand mold procedure where small mistakes can occur.

• Cyprium-90
A hi-tech alloy, which contains a minimum of 86% of copper, which improves the saliva secretion, and 2%, iron. Guaranteed free of nickel and zinc. The Cyprium-90 Metalab bits are long lasting and of very high quality.

• Flexi
Stainless steel bit covered with a hi-tech synthetic material, which is slightly perfumed with mint.
PINCHLESS

David Robart, an American trainer, invented a system that eliminates the pain in the horse’s mouth and its anticipation to this pain. Due to an internal mechanism, both sides of the bit can move independently, avoiding the chance of pinching the horse's tongue and lips.

*Better communication between you and your horse - Less stress for your horse - A closed and relaxed mouth*

PESSOA COLLECTION MAGIC SYSTEM

Metalab Magic System has done what others have not - creating a powerful transition which gives the horse a faster, stronger and clearer signal of what is expected and allows the rider to be in better command of the tempo and maneuver.

JOHN WHITAKER UNIVERSAL BIT

The John Whitaker Universal Bit enables a variety of horses to use this bit in different situations. Adjusting the point at which the cheek pieces and reins are attached, determines the strength of the bit itself. There are six different ways to use it.

ELITE BIT COLLECTION

ELITE BIT

The Elite Bit Collection is designed with superior quality to minimize pinching and pressure while enhancing performance. These bits are offered in a range of sizes and thicknesses to custom-fit each horse. Regardless of your style or discipline of riding, the Elite Bits are the ultimate tools for success.

EVOLUTION LEATHER BITS

EVOLUTION LEATHER BIT

The Evolution Leather Bits incorporate traditional leather coverings with pinchless curved mouthpieces to create a comfortable feel. These innovative bits provide a more accurate connection to your horse. A revolutionary approach that leads to a higher level of performance and communication.
The Elite Bit Collection is designed with superior quality to minimize pinching and pressure while enhancing performance. These bits are offered in a range of sizes and thicknesses to custom-fit each horse. Regardless of your style or discipline of riding, the Elite Bits are the ultimate tools for success.

THE UNIVERSAL BIT

“What I like about the Universal Bit is the ability to adapt it to suit the horse and rider’s needs”

- John Whitaker

1. Cheek pieces attached to v-point and reins are connected to snaffle ring. Perfect for horses that play with the bit.

2. Cheek pieces attach to narrow part of cartwheel and reins looped through v-point of bit and snaffle ring. Increases pressure for strong horses.

3. Cheek pieces attach to inner loop of cartwheel and reins attach to snaffle ring and v-point. Lifts the bit higher in the mouth for horses that place their tongue over the bit.

4. Cheek pieces attach to widest part of cartwheel and reins looped through snaffle ring and v-point. Gives additional movement to the horse whilst maintaining rider control.

5. Cheek pieces attach to v-point on cartwheel and reins attach to snaffle ring and other v-point. Increases pressure and moves the bit higher in the mouth.

6. Reins attached through inner ring. Increases pressure on horses poll and side of mouth to aid turning. Ideal for horses that hollow through their back.
Metalab John Whitaker Leather Coated Gag
John Whitaker Bit Collection
- Level Three
- Finish: Stainless Steel
- MP: Coated soft leather
- CP: Universal Gag

Perfect Tempo, Precise Movement, More Protection - An Astonishing Performance!

Metalab Magic system has done what others have not—creating a powerful transition which gives the horse a faster, stronger and clearer signal of what is expected and allows the rider to be in better command of the tempo and maneuver.
Being a leading manufacturer of equitation equipment, METALAB® Team has always been aiming for the goal of offering riders a bit which transmits his commands more rapidly and precisely to enhance training results, satisfies the individual needs and at the same time protects and comforts the horse.

Hence, METALAB® Team is proud to collaborate with the century’s greatest name in horsemanship, Pessoa, to develop the patented Magic System to realize our mutual goal. METALAB® Team hopes all riders can benefit from the Pessoa Collection, the fruit of the Pessoas’ many years of valuable experience and wisdom and hopes every rider will find a bit suitable to his needs, a bit of his dream.

From the Pessoas...

Because of the same ideals and insistence on perfection and because of their professional manufacturing abilities, we have chosen the METALAB® Team to be the exclusive manufacturer to produce the Pessoa Collection with the highlighted Magic System, aiming to fulfill the expectations of various riders.

The special features of the Pessoa Collection:

1. Magic System Bits - precise transition from commands to sensational performance
2. Comfortable Bits - more comfortable and protective
3. Correctional/Leverage Bits - more choices of correction / leverage
4. Special Bits - designs based on years of priceless experience of Pessoa
5. Pessoa Spurs - more secure

We are especially thankful to the METALAB® Team for realizing our ideas collected throughout our careers and for their endless efforts in researching, developing, testing and improving of the Magic System. We honestly believe that the Magic System is the best choice for educating and training your horse for competition.
Magic System Bits - precise transition from commands to sensational performances

The patented design is the combination of the flexibility of jointed mouth bits with the control of a straight bar mouthpiece. This design has done what others have not - creating a powerful transition which gives the horse a faster, stronger and clearer signal of what is expected and allows the rider to be in better command of the tempo and maneuver. The Magic System offers different mouthpieces, rubber covered, thick, thin or twisted for different degree of control, from mild to strong.

Comfortable Bits - More Comfort and Protection

Our patented design does not allow the bit to fully collapse as does a traditional jointed mouthpiece, thereby reducing tongue pressure and palate injury.

The curved shape comfortably follows the natural contours of the horse's mouth without hurting the bars, evenly distributes pressure on the tongue and encourages swallowing and relaxation of the jaw.

The bits with copper rollers, links, overlay or inlay encourage chewing and salivation and produce a softer, more relaxed mouth.
Correctional/Leverage Bits - more choices of correction / leverage

Pelham Bits
The special design of sliding pelham cheeks fine-tunes the degree of correction and control while taking into account specific needs such as sensitive or thick tongues. The longer the cheek, the more increased leverage and control and the quicker the bit.

Gag Bits
The gag bits also increase control by encouraging the lowering of the neck and putting pressure on the poll, lips and bars.

Correctional Mouthpieces
The ported bits apply pressure on the tongue, the palate or the bars through various heights of the ports to correct your horse. Low ports give more room for the sensitive tongue. Bits that come with higher ports discourage the horse from putting its tongue over the bit.

The rider could mix and match different mouthpieces with different cheeks to obtain the most suitable bit for his horse.
Special Bits - designs based on years of priceless experience of Pessoa
These bits have specific designs to suit individual needs.

BE002P01
Relaxation Bit
This bit allows the horse to swallow freely and encourages it to relax at the poll. Each side of the bit can move independently and thus allows the rider to exert pressure only on one side of the bit to avoid miscommunication between him and the horse and to avoid resistance from the horse.

BE020P01
Jumping Hackamore
This bit provides great control for horses that won't tolerate a bit or have mouth injuries. It is made with SS cheeks engraved with German silver, SS link chain wrapped in neoprene noseband and curb chain covered with neoprene strap.

BE018P01
Softening Bit (Chilean Ring Bit)
A new design for an old bit. This bit combines the poll flexion of a Baucher with a ring curb chain. The triple link mouthpiece encourages a wet and relaxed mouth.

2. Check your horses' mouth for injuries.

3. Check your bit condition.

4. If you are competing affiliated, check the regulations to see if your bit is permitted.

FRANCOIS GAUTHIER

With over 25 years’ experience, this Canada native has won some of the most prestigious reining titles, such as silver in the 2002 World Equestrian Games, Champion in the 2004 AQHA All American Congress, and Reserve Champion in the 2004 NRHA Open Futurity. Francois has over $500,000 in career winnings and is among the top 25 lifetime National Reining Horse Association earners. Gauthier now owns and runs a 150-horse operation at Sunny Pines Farm in North Carolina, while also working in close partnership with Partrade to develop a full line of equestrian items dedicated to professional riding.

JOSIANE GAUTHIER

Daughter of Francois Gauthier, Josiane is an expert breeder and rider. By managing over 7 stallions and 200 mares, Gauthier has developed an innate ability to produce well-balanced foals. She has used this ability in the ring with Non-Pro horses, earning Reserve Champion at the NRHA Futurity, 3rd in the NRHA Derby, Champion in the Florida Classic two years in a row, and has gained over $360,000 in her lifetime earnings. Josiane now concentrates on training Futurity prospects for Open and Non-Pro competitors, while also showing in all major NRHA and AQHA events.

METALAB® ANTI-SLIP RUBBER COMFORT SPUR COLLECTION

To work well, long and hard and to look good while doing it - these are the hallmarks of the Anti-Slip Rubber Spur Collection. Each spur is made of high quality brushed stainless steel and features a unique dotted rubber lining on the interior wall of the spur to prevent movement, which ensures the ultimate performance and comfort for both horse and rider. So to make your horse shine with no slipping up, choose the Anti-Slip Rubber Comfort Spur Collection.

UW310V02-0101  ■ black

Lami-Cell introduces the Ventex 22 line of products featuring the revolutionary new Coolite fabric. Coolite is a patent pending quick-dry Neoprene that is lightweight and breathable. Its rubber sponge laminate construction is 20% lighter than other breathable materials on the market, providing heat dissipation but with excellent stretch and recovery. This human medical grade material has been tested to show a remarkable difference in temperature compared to similar competitor's products. However, despite its breathability, Coolite is also durable and resilient. The excellent compression quality of the material provides significant protection from impact. So if you are looking for quality and innovation to support your horse’s performance, look for Ventex 22.

BE310660-0101  ■  black

Lami-Cell introduces the Ventex 22 line of products featuring the revolutionary new Coolite fabric. Coolite is a patent pending quick-dry Neoprene that is lightweight and breathable. Its rubber sponge laminate construction is 20% lighter than other breathable materials on the market, providing heat dissipation but with excellent stretch and recovery. This human medical grade material has been tested to show a remarkable difference in temperature compared to similar competitor’s products. However, despite its breathability, Coolite is also durable and resilient. The excellent compression quality of the material provides significant protection from impact. So if you are looking for quality and innovation to support your horse’s performance, look for Ventex 22.

- S-M-L-XL: white, red, purple, turquoise

### Features:

- Fetlock support
- Maximum comfort
- Moisture wicking
- Heat dissipation
- Keeps sand out
- Excellent fit

Lami-Cell introduces the Ventex 22 line of products featuring the revolutionary new Coolite fabric. Coolite is a patent pending quick-dry Neoprene that is lightweight and breathable. Its rubber sponge laminate construction is 20% lighter than other breathable materials on the market, providing heat dissipation but with excellent stretch and recovery. This human medical grade material has been tested to show a remarkable difference in temperature compared to similar competitor's products. However, despite its breathability, Coolite is also durable and resilient. The excellent compression quality of the material provides significant protection from impact. So if you are looking for quality and innovation to support your horse's performance, look for Ventex 22.

PRO-FIT TURNOUTS
[THE REVOLUTIONARY DIFFERENCE]

ANGLED SHOULDER GUSSETS
The improved extra high shoulder gussets are wider and angled closer to the natural structure of the horse's shoulder, which allows more freedom of movement, and helps to prevent rubbing on the pressure points of the shoulder blades to avoid hair loss and discomfort.

QUICK-DRY LINING DETAIL
Quick-dry lining located on the top inside of the blanket (along the spine) wicks away moisture, regulates body temperature and helps keep the horse's system balanced with the fluctuating degrees they may experience during 24 hour turnout. The quick-dry lining is featured in all fiberfill Pro-Fit turnouts.

STRETCH INSERT AT WITHERS
Our waterproof stretch insert at the withers is a patent pending design that is engineered to stretch when the horse bends his neck. This feature relieves pressure at the withers, allows more freedom of movement, prohibits hair loss and conforms to the horse's natural neck line.

SLIDING SECURE LOCK SYSTEM
Our surcingles are reinforced with elastic and a unique sliding secure lock system that doesn't require a rubber washer. This makes the surcingles easier to lock in place. You don't have to worry about them coming loose during turnout, or being fastened incorrectly.

COME BACK TO THEIR BEST CONDITION
Eliminate Fatigue ↔ Improve Immunity ↔ Reduce Swelling & Pain

INCORPORATING TECHNOLOGY WITH THERAPY
In today's technological environment, large amounts of electromagnetic waves and pollution are created (by electrical appliances, carbon emissions, etc.) which disturb the positive ion, seriously impacting the normal ion balance of the horse and resulting in physical pain, disease and acidification.

The LAMI-CELL COME BEST product range incorporates Anion-adding technology with Far-Infrared thermal healing therapy fibers. The combination of these advanced 2 in 1 functional fabrics can benefit all disciplines, from pleasure riding to the most strenuous of equestrian sports, Western or English.

WHAT IS ANION AND HOW DOES IT AFFECT THE BODY?
Due to intense physical activity, large amounts of lactic acid accumulate in the muscle; this is the main cause of fatigue and pain in the horse’s body. Anion is an important factor in the elimination of lactic acid, which is verified in the use of Anion chains by many professional athletes today. The Anion-adding properties of the material in the COME BEST line will effectively add negative ions to the horse’s blood stream and promote an appropriate ion balance in the body. This rebalance of ions will aid in purifying the blood and activating cells, which helps to eliminate lactic acid, regulate the autonomic nervous system and, thereby, increase endurance.

ANION BENEFITS
↔ Reduces fatigue
↔ Promotes blood circulation
↔ Regulates heart rate
↔ Lowers blood pressure
↔ Reduces inflammation & swelling

WHAT IS FAR-INFRARED AND HOW DOES IT AFFECT THE BODY?
The Far-Infrared thermal healing therapy fibers used in these products help to ensure that energy radiated by the horse's body is recovered to contribute to thermal insulation and to increase blood circulation. This will gently heal, soothe, and stimulate the muscular system to recover more quickly, which may, in turn, improve the immune system and help eliminate the effects of fatigue.

FAR-INFRARED BENEFITS
↔ Prevents premature fatigue
↔ Improves blood circulation
↔ Reduces swelling and pain
↔ Reduces warm-up time

THERMOGRAPHY TESTS
The thermography tests below show how LAMI-CELL COME BEST reduces heat and inflammation.

This horse presented with major back soreness
Reduction in stiffness & heat after 3 hours of wearing Come Best Sheet
Reduction in stiffness & heat after 6 hours of wearing Come Best Sheet

**WASHING & CARE INSTRUCTIONS FOR HORSE CLOTHING**

We recommend using a professional horse clothing cleaning service. A step by step washing method is listed for your convenience.

1. Gently remove all excess dirt from the horse clothing prior to washing.
2. Do not use a strong biological washing aid; this may damage the fabric of any waterproof coating applied to your horse clothing. Use a mild, suitable washing assistant at 30 degrees Fahrenheit.
3. Ensure all buckles, surcingles and Velcro closures are fastened prior to washing.
4. Never tumble dry or use heat; this may damage the waterproof coating applied to your horse clothing. Drip air dry only, outside, and hanging is best.
5. The bag your horse clothing comes in is a useful storage solution. Store your horse clothing in a cool dry place.
